Pride of the city, Pride for every "ONE"

There might be a bunch of world records made by incredible individuals, but for HK Tramways', every individual counts. "From every tiny mechanical part of the tram, every tramcar built in the depot, every sweat of our motormen, every precise decision made by our craftsman, every creative input by our fans in the community, every support casted by the commuting choice of our passengers, to all the smiles we shared on the tram - they all contribute to the success of Tramways today, creating such a remarkable achievement we can all share together," elaborating the campaign message by Mr. Cyril Aubin, Managing Director of HK Tramways.

As the Guinness World Records[™] Title is a tribute to everyone along our journey, Tramways is glad to join hands with a number of like-minded local and world-renewed brands to spread the joy throughout the city. Featured crossovers include a photo exhibition highlighting proud moments with trams with Leica HK, a collection of limited-edition tram-themed living goods and Tramways' first mall pop-up store.

"RecorDING the City's Flavour" with Cupping Room

Partnering with the local coffee roastery, Cupping Room, 2 flavours are tailor-made to celebrate the tramways' biggest milestones: 1904 and 2021, the founding year of HK Tramways and the glorious present, have recorded 2 distinctive tastes of the city. Both flavours are developed with Colombian coffee beans. "1904" is a washed coffee created by a long-standing coffee estate in Timaná, while "2021" is created by Rigoberto Herrera, another esteemed coffee estate, using a new sun-dried method. While they are processed in different ways, both coffees have beautifully fused the old with the new and are equally aromatic, just like how HK tram has never ceased to become better from the year of 1904 to the year of 2021.

In addition to the coffee collection, local illustrator Kazy Chan has also taken part in designing the "HK Tramways x Cupping Room x La Viña Cookie Tram Box". Inside the playful water-painted tram box are 25 pieces of freshly baked cookies by locals and a Ding Ding audio effect!

"Showcasing colors of HK" with CASETIFY

Inspired by the Colors of Hong Kong, HK Tramways x CASETIFY collaboration debuts a colorful spin on retro-inspired designs, created for CASETIFY's premium quality tech accessories that incorporate design elements riding on local transportation motifs, classic neon signage, old ticket and patterns of destination signs. The Impact and Mirror cases are available for iPhone series. This is also CASETIFY's first ever collaboration that is available in the Impact & Mirror cases available for iPhone series and AirPod.
